ABOVE: Cream-colored, polished limestone, meets rustic travertine and satin glass in this minimalist penthouse bar.

Whether your taste turns to chic European minimalism, elegant neoclassicism or a more sumptuous traditional style, renowned Argentinean architect and interior designer Liliana Korn is equally at home. Her versatility is reflected in a Sunny Isles penthouse (left), a Boca Raton Polo Club residence (below), a traditional French bedroom (top right), and a regal formal dining room (lower right).
